路由器

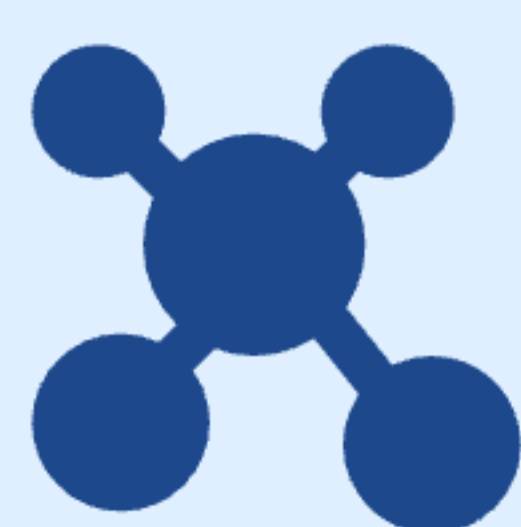

项目简介

PROJECT DESCRIPTION

我们的智能化路由器就是 Physical Work 的基础设施之一，与 DePIN 有天然的结合性，同为 web3 的基础设施，我们专注物理硬件方面，DePIN 专注于可信数字方面，从而创造可信和可追溯的数据生命周期，这种完整性进一步增强了生态系统的可信度和价值。

Our intelligent router is one of the infrastructures of Physical Work, which has a natural combination with DePIN. It is also the infrastructure of web3. We focus on physical hardware, and DePIN focuses on trusted digital, thus creating a trusted and traceable data life cycle. This integrity further enhances the credibility and value of the ecosystem.
